

Come to Stockholm June 14-15 to Help Shape the Future of Public Relations

(And if you can stay for the royal wedding, bring a bag of rice.)

Public relations leaders from around the world.

A program to enhance and affirm the role of public relations in organizational success.

Provocative speakers addressing the new “value network” society.

A truly interactive experience where you will think and work toward a conference result with positive long-term implications – “The Stockholm Accords.”

In a beautiful setting at a most propitious moment – Stockholm at the time of the Nordic “long night” and Crown Princess Victoria’s wedding.

The World Public Relations Forum
will be all of that
(and, if it’s possible,
even more).

PUBLIC RELATIONS
