

STUDENT VETERANS *of* AMERICA

ADVOCACY

As stewards of the G.I. Bill, SVA is committed to ensuring that veterans will be able to access and utilize veteran's education benefits for generations to come.

RESEARCH

SVA, in partnership with the U.S. Department of Veterans Affairs and the National Student Clearinghouse, launched the Million Records Project last year. This historic research initiative provides near real-time data that policymakers, service providers, institutions of higher learning, and the general public can act on to support student veterans.

PROFESSIONAL DEVELOPMENT

Through innovative programming and academic support, SVA ensures that student veterans are poised to enter fields with high economic value. After graduation you also have access to the SVA Alumni Network, connecting graduating student veterans with professionals in high-demand fields who are looking to mentor and hire student veterans.
